Edumate

On the following pages you will find an overview of the system, however please note that some areas will not be accessible until your child has commenced school.

An individual username is allocated for each individual parent/guardian. This unique login registers which parent/guardian is updating records or providing explanations for attendance as required for our records.

We request that all parents/guardians access Edumate to check their details are correct and to enter their child's/children's medical details.

Function

The **Edumate** portal provides direct access to:

- View your child's Attendance, Timetable and Academic Reports
- View the School Calendar
- View your Account Transactions if you are the account holder
- Update your Personal Details and your child's Medical Details at any time
- Information on academic progress
- Welfare details including notifications of disciplinary action (ie detentions) or awards given
- Depending on the area of the School some of these functions may not be available.

Protect Your Details

To protect your details the Edumate Login operates via a secure pop-up window. As such you must enable pop-ups for the Edumate system to work.

NOTE: *We must stress the importance of your Username and Password being kept confidential and secure, as they provide access to update details which form the School's legal, auditable record.*

Update Personal Details

This section is located at the top right hand of the screen and can be accessed by clicking the parent or carer name. It holds your personal details and the medical details for your child/children. These can be accessed and updated at any time, and should be reviewed and confirmed at least once a year.

At first login please review your details in the change my details area, make any required updates and press either the Confirm (No Changes) or Submit Changes button at the top of each section. Please ensure that you complete all sections before pressing 'Submit Changes'.
