

Pittwater House

Online Payment Gateway

Pittwater House uses a payment facility via our website for fast and secure payments by credit cards. Our aim is to continue to provide flexible options for families when making payments to the school.

To access the system go to <https://www.pittwaterhouse.com.au/online-payments/>

School Fees

Current families can now pay their school fees by credit card online. School accounts are direct debited on the 15th of the month unless this date is not on a business day, then it is the following business day. Families can now pay prior to this day with a credit card.

To pay your School Fees go to <https://www.pittwaterhouse.com.au/online-payments/>

Enrolment Fees

Prospective and current families can now complete the enrolment payment process online. No need to send in cheques or money orders, payments can be made securely online. Payments can be made for Application Fees and when Definite Places are offered to families.

To pay Enrolment Fees go to <https://www.pittwaterhouse.com.au/online-payments/>

As well as school fees, donations may also be made via our gateway.

Pittwater House aims to ensure we continue to improve our built environment and offer our students the best possible resources and opportunities in life through education.

To improve the facilities for our students we are largely dependent upon the generosity of the Pittwater House community. School fees and government funding only cover our operating budget, this funding does not cover all that we desire, in the education for our students.

The Pittwater House Parents Association work tirelessly for the improvement of the school facilities and annually donate amounts that add significantly to the resources of the school. Each year we seek contributions to the School Building fund to assist with larger building improvements and enhancements.

Following is further information on each of our funds.

Building Fund

Pittwater House is known for its expansive grounds and facilities. Pittwater House aims to continually improve the environment and facilities for its students.

2018 will see the completion of our Master Plan which will set the direction for capital works for the next several years.

Donations will help to bring the master plan to completion within a shorter period of time and allow more of our students to enjoy the improved facilities.

Library Fund

At Pittwater House our library is a learning hub that is used extensively by all our students.

The Library fund will enable us to provide resources to the departments that will benefit students today. Donations will immediately impact students directly.

Creative Arts Fund

Our goal is to develop creative minds from a very early age by providing high quality music programs to our students.

Research has shown that music benefits many parts of our life from developing creativity, aiding brain development and enhancing emotional wellbeing.

With the launch of the Creative Arts Fund we aim to provide our classrooms with the most up to date instruments and equipment to help every child on their creative journey.

The Creative Arts fund will enable us to provide new instruments to the departments that will benefit students today. Donations will go immediately towards the purchase of new instruments that will impact students directly.

To make a donation to any of these funds go to <https://www.pittwaterhouse.com.au/online-payments/>

We hope this online payment system assists you with a convenient option when completing transactions with the school.
