Family discounts or families with more than one child concurrently enrolled in the school. The discount rate is set at 2.5% for the second child, 5% for the third child and 10% for the fourth and subsequent children. The discount is for tuition costs only and applies only where the student is not receiving any other type of discount, e.g. those who are in receipt of a scholarship will not receive a family discount and are removed for the purposes of calculating remaining family discounts. For example, if the second child in the family receives a scholarship, they will not receive a further discount as the second child, the third child will receive the second child discount.
