

Pittwater House

Junior School Co-curricular Activities

Pittwater House provides students with a well-rounded education where students have the opportunity to explore a broad range of co-curricular activities beyond the classroom.

Co-curricular activities are designed for all skill levels and give your child the chance to discover new things and develop their talents, interests and passion for sports, the arts and other subjects outside the school curriculum.

Many co-curricular programs begin in Junior School and continue through to Senior School.
